

# Welcome to Terrapin's Resources Site!

**Terrapin**, the world's oldest and most experienced Logo company, offers a wide range of resources to support Logo and Logo programming. These include definitions and examples for all Logo commands, "how to" instructions for using the Logo interface and getting started programming with Logo, example programs illustrating different Logo features, tips and tools for creating projects, archives of Turtle Talk newsletter issues, a bibliography of books about Logo, and answers to frequently asked questions.

Contact Terrapin if you are unable to find the resource you are seeking, have a suggestion for information to add, or would like to contribute your own project, program, or experience to the resource site.

For a complete list of all available pages, see the [Site Map](#).

## Customer Stories

Terrapin products are adaptable to a wide variety of teaching and learning situations. They may be used from the youngest students to adults and in a variety of settings and subject areas. We have collected [these stories here](#). Tell us your story about how you are using Terrapin products.

## Turtle Talk Newsletter

*Turtle Talk* is Terrapin's newsletter, issued 6 times a year. In each edition you will find new product announcements, a unique customer story, a technical story to enhance your knowledge and use of products, upcoming conferences we'll be at where you can try products and ask questions, and a list of teacher-sponsored events that may be coming to a location near you. Visit the *Turtle Talk* newsletter archive to access current and all past issues.

## FAQs

[FAQs](#) provide answers to frequently asked questions, ordering, upgrading, licensing, and technical issues.

## Logo Bibliography

The [Logo bibliography](#) is a list of publications about Logo, including author, publisher, date, and language.
